Board of Trade Boosts New Road.

At the meeting of the Board of Trade Tuesday night, active steps were taken toward starting the proceedings necessary in the matter of building a new road from Woodside to La Honda. The executive committee will at once circulate a petition which when properly signed will be presented to the supervisors. Supervisor McEvoy has promised to give the matter his hearty support and anticipates no trouble in carrying the project to a successful outcome. All of the residents in the vicinity of La Honda are heartily in favor of the road and the same may be said of those on the east side of the mountain. As soon as the matter is presented the proceedings will be begun.

An Automobile Heroine.

Miss Emma Haaker, the daughter of Mrs. Hansine Haaker of Woodside, proved herself a heroine in an automobile accident near South City last Thursday night. Miss Haaker who is the secretary of Dr. H. G. Plymire, the coroner, was out with the doctor on a professional call when the automobile in which they were riding plunged over an enbankment and went down a distance of fifteen feet. Both Dr. Plymire and Miss Haaker were seriously injured, the former having several ribs broken. As soon as Miss Haaker became conscious she assisted the doctor and then called for help. Failing to secure assistance she almost carried the injured physician to his home a distance of several miles. Dr. Plymire has since been confined to his bed as a result of the accident.

Mass Meeting Thursday.

Every citizen who is interested in the welfare of Redwood City should attend the mass meeting to be held at the Alhambra next Thursday evening to talk over the question of street building. This subject is the most vital that Redwood City has to do with. Good streets are one of the important factors in a city's progress and should be seriously considered by both the taxpayers and the council. The object of the meeting is not only to build good streets but to decide upon the most economical way of doing the work. Every citizen is invited to be present.

BUILDING OF FIRST RAILROAD

Some Incidents of the Building of the Original San Francisco and San Jose Railroad.

[Conclusion of the history of the construction of the San Francisco and San Jose Railroad—1863-'64.]

That progress had been rapid and the work done of an excellent character is shown by an inspection made by the county surveyor of San Francisco in the latter part of January, 1863, at the direction of the Supervisors. In his report to the Board the surveyor said that in San Francisco county all the grading, masonry and bridging had been completed except for a distance of about 60 yards through the Bernal cut. In about another month of working time all work in that county would be practically completed. In San Mateo county about two miles of grading was incomplete, but nearly all the masonry required on the line had been completed, while between the San Bruno road and San Jose the preparation of the roadbed was reported as practically complete, and it was estimated that the whole of the grading would be completed by the first of May. The masonry was said to be of a superior quality to that of a large majority of the railroads in the eastern states.

At this time nearly one-half of the ties needed had been delivered and the remainer were ready for delivery. About 200 tons of iron had been delivered, and the spikes and plates for the entire road were on hand, and it was expected that the laying of track would be commenced in April and be completed in about three months.

That some of the owners of the lands through which the new railroad route was to run failed to realize the value to their property of the railway to an extent which would leave them to either give the necessary right of way or accept what was considered a reasonable price for the required lands, is shown by the fact that in this county alone it was necessary to institute three seperate condemnation suits. The first of these was against a large number of defendants, owners and tenants of undivided interests in what is known as the Burl Burl Rancho, near the old Ten Mile House, and making a total of little more than 61 acres. The second suit was filed for lands adjoining the first property and running through a portion of the Laguna de la Merced Rancho a distance of tabout two and a half miles. The third suit involved land in the extreme southern portion of the county on the line of the railway, commencing at the San Francisquito creek and running northerly a distance of a little more than two miles.

While these suits were before the courts, grading was pushed forward without delay. Sometime before the work of grading was finished, the laying of the rails on the completed portion was commnced, starting from San Francisco, and as portions of this work was completed, temporary trains were run over the road. On Saturday, October 17, 1863, the road was formally opened for passenger businesst from San Francisco to Mayfield. For this purpose an excursion train consisting of six passenger coaches and a number of freight cars, drawn by two locomotives, was run. The train, with some 400 passengers, consisting of the officers of the road and their guests, was run to Mayfield and then returned to San Francisquito creek, where a picnic was held, at which champagne flowed freely. As is usual on such aoccasion, a small portion of the hoodlum element managed to gain admittance with the crowd, and as the train returned past this city one of these undesirable personages managed to make his presence felt by a dastardly act. From one of the windows of a feight car a heavy champagne bottle was thrown at a crowd of small boys who were watching the unusual sight of a passing train. The bottle struck a young son of Joseph Smith, a well known resident, full in the face, breaking his nose and inflicting othere severe injuries.

At this time but one train each way daily was run, leaving San Francisco from the old Pioneer Race Course, at the outskirts of the city, at 8:30 3 in the morning and arriving at Mayfield at 10:30, consuming just two hours in the trip. The return train left Mayfield in the morning at 10:45 and reached San Francisco at 12:45. The stations on the line were San Miguel, San Bruno, Seventeen Mile House, San Mateo, Belmont, Redwood City, Menlo Park and Mayfield. This arrangement did not suit the patrons of the road, from the fact that in order to do business in the metropolis is was necessary to remain away from home all night and practically loose two days. The railway company was not long in showing appreciation of this fact, and after about two weeks the time table was rearranged so that the train left Mayfield in the morning at 8 o'clock and arrived in San Francisco at 9:45, cutting down the running time 15 minutes. The return train left San Francisco at 4 in the afternoon.

On December 3, 1863, the road was completed to Mountain View, and the regular service of trains to that place commenced. On December 23d, trains were run through as far as Santa Clara, making the trip from San Francisco in two hours. During the first week in January, 1864, the road was completed through to its terminus in San Jose. To celebrate the completion of the great enterprise the people of the Garden City gave a big free entertainment on January16th, devoting the entire day to merry making. On this occasion the officials of the new road, together with the visiting officials of San Francisco and San Mateo counties were lavishly entertained. On January 18th the company announced regular daily trips from San Francisco to San Jose and return, the time occupying two hours and ten minutes. Thus San Jose and San Francisco were now connected by the iron highway which in time was to become one of themost important sections of the coast division of the Southern Pacific Railway, and to be the means of travel to and from business of an immense number of people. The entire road was not yet complete however, as trains then only run to the outskirts of San Francisco, and it was not until February 13 that the trains were run to the permanent depot at the corner of Fourth and Brannan streets.

Thus concludes a practical history of the original work of construction of this important railway, which has never even to this date been completed to what is considered even by its present owners as complete in the modern sense. Improvements and changes have been constantly made, involving the expenditure of millions of dollars. To attempt to follow these would involve a history of this county and the entire southern portion of the State. This we shall not attempt to do in this series of aritcles which attempts to deal only with the pioneer work of the building of the county. For the present the subject will be allowed to rest, and with the next issue of the Times-Gazette will be resumed the general series of Pioneer Reminiscenses of which the building of the San Francisco and San Jose Railroad was but a part.

Will Investigate Milk Supply.

The San Mateo County Medical Association had an enjoyable and instructive meeting at Uncle Tom's Cabin, near San Bruno Monday night, at which the members were entertained by their brother practitioners of the north-end. The subject of children's ailments was discussed after which there was a talk on the county dairies. A committee consisting of Drs. D. B. Plymire, W. M. Barret and Wood C. Baker was appointed to investigate and render a report as to the condition of the sources from which the county residents receive their supply of milk. It is the intention to begin a campaign of education in this matter and interest the public in dairy sanitation. All of the members of the association are determined to enter the campaign with vigor and they expect the support of the public.

Poison Oak Poisoning.

Ballard's Snow Liniment cures it. Mr. O. H. P. Cornelius, Sarner, Ore., writes: My wife has discovered that Snow Liniment cures "Poison Oak Poisoning," a very painful trouble. She not only cured a case of it on herself, but on two of her friends who were poisoned by this same ivy. Price 25c, 50c and $1.00. Sold by Ryan's Drug Store.

A Regular Jam of Eager Buyers

The Public are Snapping Up the Furniture, Carpet and Rug Bargains Quickly at the Cambers-Hayes Company's Big Manufacturers' Outlet Sale now in progress at 179-181 South First St. and 31-37 West San Antonio St., San Jose, California :: :: :: ::

THE CROWDS attending this sale are terrific, and many people are attending this sale from a distance of 350 to 400 miles. This most wonderful sale of **Furniture, Carpets, Rugs and home furnishing needs** has certainly attracted the people from every direction. It shows the public appreciate genuine bargains. This was certainly manifested by the thousands of dollars worth of **Furniture, Carpets, Rugs, Etc.,** that were sold on the opening day of this most wonderful furniture and carpet sale, which is without question of a doubt the greatest ten day sale that was ever given in the United States. The bargains to be had at this big furniture and carpet sale are money saving opportunities to the people—the masses—those who work for a living. The grand values to be had at this sale **is spreading like wildfire** and the wonderful bargains offered are being snapped up rapidly. Never in the history of retail merchandising have the public had such opportunities **to buy Furniture, Carpets, Rugs and home needs** such as this big sale now affords you. **On account of the fact that the Cambers-Hayes Company, of San Jose, Calif.,** having agreed to pay freight charges to any town **on Furniture, Carpets, Rugs, etc.,**—this fact alone has not only brought people from a great distance to attend this sale, **but Mail Orders have literally poured in** by the thousands. **Every one, rich and poor,** seem to want to share and benefit in the **Cambers-Hayes Company's annual manufacturers outlet sale.** This is this big concern's yearly offering to the people, and the one time of the year when **this big establishment, the Cambers-Hayes Company, sacrifices all profits direct to the people in order to attract twenty thousand new patrons to their establishment. If you haven't got the ready cash, it will pay you to borrow it—in order to take advantage of the many grand values to be had at this big ten day sale now going on at the Cambers-Hayes Company's Big Store, at 179-181 South First St, and 31-37 West San Antonio St., San Jose, California.** Their great purchase of $65,000 worth of Manufacturers' surplus furniture and carpet stocks is certainly proving to be a regular bargain feast to the people. The entire stocks are selling rapidly—but just as fast as the offerings on their big floors find purchasers, then immediately fresh lots of **Furniture, Carpets and Rugs** from their big warehouses take their places. It was a tremendous purchase, indeed, and naturally **The Cambers-Hayes Company** are unable to show the entire stock all at one time. **That which you looked upon yesterday you wont find tomorrow—the display is continually changing. It is a most wonderful exhibit and a bargain offering of furniture, carpets, rugs, etc., that it will pay you to come 500 miles to see.** Understand and remember that this sale only lasts ten days in all, positively **ending on Saturday night, July 24th. Dont delay, but act quickly and attend the Cambers-Hayes Company's big manufacturers' outlet sale of furniture,** tomorrow and every day until the close of this big sale which only lasts ten days. Let nothing keep you away, come at once—and come prepared to profit by this, the greatest bargain carnival, and the greatest sacrifice of furniture, carpets, rugs, etc., that was ever given in any part of the United States. This big sale presents a veritable harvest ot furniture bargains and household needs such as was never offered the people before in any section of the country. The crowds attending daily have been delighted with the wonderful values offered. Every visitor to **The Cambers-Hayes Company's big store** are liberally supplying themselves, and in appreciation are sending their friends and neighbors. If you haven't already attended this most wonderful furniture and carpet sale—then don't lose any time getting here in order to secure your share of the many grand bargains this big sale now affords you. **Mail orders to be filled must positively reach our establishment at San Jose, California, not later than Friday morning, July 23d as this big sale positively ends Saturday night, July 24th.** A word to the intelligent should be sufficient, as this is an opportunity to make your dollar do double duty. **Be careful and be sure you find the right place. Ask any street car conductor who will direct you to our establishment. Look for the big green sign of the Cambers-Hayes Company, at 179-181 South First street, and 31-37 West San Antonio street, at San Jose, California.**

Notice! We advise quick action on your part as these prices only hold good for six more days

D. E. O'KEEFE, Editor and Proprietor

Editor James H. Barry of the San Francisco Star, which recently began the twenty-sixth year of its publication, is to be congratulated upon the success of that journal. Able and always ready in the defense of the right and condemnation of the wrong, he has built up a splendid clientele of readers, not alone in San Francisco but throughout the state.

Actuated, apparently, by the paltry motive of building a sensational story for the delectation of its scandal loving readers, the San Francisco Examiner is again attempting to malign the fair name of San Mateo County. From a perusal of a recent issue of that "news" paper, one might infer that the majority of the residents of the northern portion of the county—many of whom, by the way, are business men of San Francisco—were but little better than a mob of blacklegs and cosurtesans. It seems to be about time the people of San Mateo county called a halt and declined to further support this class of "journalism."

The Examiner is busily engaged in fostering division and dissention among the ranks of the Republican Party of San Francisco. This seems to be the only hope of the Democratic Party, either in that city or in the State. The record of the Republican Party in this State is such as to demand the general support of the people, and it is only by division in its ranks that its opponents can hope for even the slightest measure of success. It is fair to presume that this same class of journals will adopt the same tactics to prevent the nomination of Governor Gillette to succeed himself. It is just as fair to presume that the effort will fail. The people recognize the ability and integrity of their present Chief Executive and will undoubtedly demand his return for another term.

The Duty of the Property Owner.

The determination of the Trustees to submit the question of the selection of the character of material to be used in the improvement of streets in this city to the property owners is a wise and commendable one. This work will involve a very considerable outlay, which of necessity must be borne by the owners of property immediately affected. Of right, those who are to be called upon to pay the bills should be consulted in regard to the character of the purchase.

This right, however, involves an equal duty. Experience has certainly demonstated that the old method of macadam roadway construction will not withstand the wear of modern transportation. The advent of the automobile demands an almost complete revision of the system of street improvement.

A practical sample of an improved street surface, which it is claimed will withstand any wear, and can be laid at very slight additional expense, has been placed upon one of our streets. This should be inspected by every person interested. Other improved methods of road building are also being tested in portions of the county adjacent to this city. All of these should be given careful consideration.

Every citizen interested in the welfare of the city should attend the meeting at the Alhambra next Thursday evening and be prepared to give this important matter intelligent discussion. Those who fail to do so will be remis in a duty to themselves as well as the public and will have no right to be heard in complaint afterward.

Where is the Evidence.

This week the Examiner has made a lot of fuss about gambling in the north end of the county. The "Times Gazette" man enterviewed Deputy Sheriff Frank Bartlett yesterday on the subject and that official stated he had visited the so-called gambling places with Sheriff Chatham on several occasions and could find no evidence of gambling. The sheriff's office has been doing every thing possible to suppress gambling in the county, going so far as to employ detectives to watch certain places near Colma. Mr. Bartlett stated that if a warrant would be sworn to it would be served on the guilty parties and they would be brought before the bar of justice. It is an easy thing to make an assertion but quite another to prove it. Mr. Chatham is making the best sheriff the county ever had and this is causing some of his political enemies much alarm.

Sequoia Trustees Organize.

The Sequoia Union High School trustees held their annual meeting on last Saturday as provided by law. The meeting was called to order by President L. P. Behrens, who stated that one object of the meeting was to reorganize the board. Mr. Behrens was unanimously re-elected president and D. E. O'Keefe re-elected secretary for the ensuing year. All the teachers that taught last term were selected for the coming term, with the exception of the commercial teacher. Mr. Meyer of Los Angeles was chosen for that position. The board agreed to erect a shed for horses belonging to the pupils, in the rear of the school lot. The building is much needed in the winter time for the accommodation of those living out in the country. A new manual was ordered printed for the school. There will be a large registration next semester, larger than ever before.

John O'Farrell, the gardener is very low at his home near Fair Oaks. He is being attended by Drs. Wilbur and Villain of Palo Alto. Blood poisoning is the cause of his illness.

We take pleasure in announcing to our Redwood City Patrons that our purchases of Household Goods were made on a large, liberal scale before the enormous advance which has just been made by every factory that produces goods made from cotton and linen yarns.

As we buy direct from the manufacturers our orders were booked early in the year, hence our customers will not be obliged to pay the 15 to 20 per cent advance just announced by the manufacturers of sheets, sheetings, blankets, flannels waistings, ginghams and almost every textile fabric that enters into household consumption.

As long as our present stock lasts, the same low standard of prices that has prevailed for the past six months will be maintained. Buy now, before the advance is made.

Survey of Big Seale Ranch Is Completed---National Bank Increases Office Force.

The San Mateo County Building and Loan Association matured thirty-five shares at the last meeting of the board of directors, authorizing the payment of $7000. They also made loans aggregating $13,500.

Assessor C. D. Hayward and family are spending a few days at Capitola. There is a big run of salmon in the bay at the present time and Mr. Hayward who is an expert fisherman, caught several weighing ten pounds.

Your attention is called to the statement of the First National Bank and the San Mateo County Savings Bank which appear in this issue. It shows that both institutions are enjoying the confidence of the people. Being properly managed is a guarantee that depositors are assured of the safe return of their funds when called for. Both banks are under the same management and their motto is security to their depositors and fair treatment to all.

Coroner H. G. Plymire has appointed Richard Pigeon a deputy coroner. Mr. Pigeon took the oath of office Thursday. The appointment is a good one and meets with the approval of all.

CAPITALIST OR SERF

Dr. Ross Considers Hawaiian Islands No Place for Man of Moderate Means.

Sea-bronzed and rugged appearing, Dr. J. L. Ross returned to this city Tuesday, after a four weeks' vacation spent in a trip to the Hawaiian Islands, spending a considerable portion of the time visiting with his son at Honohulu. The doctor is enthusiastic over the Hawaiian trip, expressing much surprise that so few Americans summer travelers avail themselves of its delights.

To Dr. Ross, one of the most attractive sights of the trip was gained with the first entrance of the port of Honolulu, where one is offered a view of the magnificent Pearl Harbor and the almost impregnable fortifications being erected for the protection of the harbor. Here practically in the bowels of an extinct crator, the Government engineers ar constructing a massive series of fortifications.

When asked as to the business importance and prospects of the country, Dr. Ross predcted a magnificent future, considering this as one of the most valuable of Uncle Sam's recent acquisition. He, however, considres it at this time as the home of only the extremely rich or the extremely poor. One must either be a capitalist or a menial. There is practically no place for the middle class, nor is the man of small means desired.

Asked as to the circumstances of the present troubles with the Japanese laborers, Dr. Ross expressed the opinion, gained from his own observation, that the planters were themselves responsible for their present difficulties. Because this class of labor could be obtained at a comparatively a small cost, they had almost entirely supplanted white assistance, even in the more responsible positions, such as foremen and overseers, until now the Japanese practically had them at their mercy. Where at one time a large plantation gave employment to from 40 to 50 white, these were almost entirely supplanted by the wily little brown men. This element he considered as of no benefit to the country, the larger portion of their earnings being sent to Japan. While the average wages of the Japanese laborer was but $20 per month, the greater portion of this was saved. As a rule it costs them but $7 per month to live, while the remainder was deposited in the Hongkong Special Bank for return to mother country.

On the return voyage, on the Oceanliner Alameda, the Doctors experienced some rather rough weather, especially on the day entering port at San Francisco. On the homeward voyage there was something of a rivalry between the Alameda and the big Pacific Mail liner Mongolia. This lead the commander of the Alameda to overlook to some extent the comfort of his passengers, considering speed of more importance than the avoiding of a few attacks of sea-sickness.

SPECIAL SESSION OF SUPERVISORS

Assessor's Report Shows Enormous Increase in County Property Values.

CONTRACTOR SHOWS BAD FAITH

Chairman McEvoy Severely Condemns Methods of Contractor for Pope-Street Bridge.

The Board of Supervisors held an adjourned meeting last Monday All the members were present.

The matter of fitting the new court house building with fire proof doors, windows and casings, that was discussed at the last meeting was taken up and further considered.

Glenn Allen, the architect to whom the matter was referred, reported in a lengthy communication.

Waterhouse & Price would furnish all metal casings around the windows and with stool and apron on all windows for a total of $7,900. The O'Brien Construction Co. makes an allowance of $2500 from this which would leave $5400, which the material and finish would cost the county. The alternate proposition, which includes material, stool and apron for all the windows, but no casings, would cost $4,125.

Waterhouse & Price Co., in a lengthy communication agreed to do the work for the figures quoted by the architect and the O'Brien Construction Co in a letter agreed to make the allowances set forth by the architect. All the communications were ordered filed.

Blackburn inquired if the estimates given included the necessary locks and other attachments, in answer to which Mr. O'Brien stated that the locks that had been used in the old building would be used in the new structure.

Chairman McEvoy presented the following report regarding the Pope street bridge, recently constructed by John Williams across the San Francisquito creek east of Menlo Park:

To the Honorable Board of Supervisors, San Mateo county---Gentlemen: Your committee to whom was referred the controversy of John Williams, contractor on the Pope-street bridge, most respectfully begs to report as follows: That I have investigated the construction and find the plastering has been ignored from three to four feet all along the base. I met the contractor at the bridge by appointment and calling his attention to the fact and showing him that the specifications called for plaster three feet below the surface we agreed that if he would clear away from the bases one foot deep and plaster the same in good shape I would accept the work and recommend the payment of his claim. Later on he wrote me that he had completed the work. I made a special trip down to see it, only to find it incomplete. In no place had he gone down the foot agreed upon, or made any pretense of so doing, never moving a shovelful of dirt. There are yet exposed parts that have no plaster. Under the contract he would be compelled to dig down three feet and plaster the same. By my compromise he would save two thirds of the work, yet he still refuses to do it. Now, inasmuch as he has not accepted my liberal offer, and the breaking of his own agreement I do not think he is entitledito any further consideration of this board. Any further leniency would be abused. Under the circumstances I would recommend that this board invite bids for the completion of the work, letting the work to the lowest bidder and deducting the cost from any moneys due him on the original contract.

Respectfully submitted,

P. H. McEvoy.

The communication was accepted and filed on motion of Blackburn, seconded by Coleman.

The Clerk was directed to notify John Williams, the contractor of the Pope St. bridge to begin at once to complete the structure according to contract. If this was not done the board would take the matter out of his hands and have the work done.

Geo. C. Ross appeared on behalf of the Direct Line Telephone Company and addressed the board in reference to the contract awarded to that company to install its system of phones in the courthouse building. He suggested that the work of supplying the conduit, which the board considered too expensive, be eliminated from the contract, and that the Direct Line Company go on with the work of installing its phones at the price quoted. The company was not anxious to supply the conduit, but he believed that it had a valid contract to supply the telephones.

The chairman stated that the matter had been referred to a committee which had not yet rendered a report.

The committee was given further time to report, on motion of Coleman.

Justice Hannon stated to the board that he had purchased a new set of codes at a cost of $17.50 and asked that his action be approved. He was advised to have a requisition for the books issued by the supply committee, charging him with the cost.

Auditor Underhill reported that the sum of $1516.50 was still due the Guilfoy Cornice Co. for work done on the new courthouse. The report was filed.

Assessor Hayward announced that he had turned over the assessment roll to the clerk. On motion the books were accepted.

The assessment rolls show a total of $26,243,775, apportioned to the several townships and incorporated cities as follows:

First township	$6,724,160
Second township	5,424,365
Third township	5,589,440
Fourth township	1,858,705
Fifth township	940,965
Redwood City	1,389,825
San Mateo	2,405,120
South San Francisco	974,515

The increase during ten years is $12,494,380, and in the past year $1,000,000.

The Board of Supervisors after adjournment reconvened as a board of equalization. The clerk was directed to give notice that the board would be in session July 19 and 26th, equalize assessments.

The rule was adopted, on motion of Blackburn, seconded by Francis, to raise or lower assessments on giving three day's notice.

Deer and Dove Hunters Ready.

The ordinance, shortening the game season in the county, that was passed by the Supervisors on July 6th, will not go into effect until July 21st In the mean time hunters are taking advantage of the state law which permits the killing of deer and doves from July 15th. Season in this county does not begin until August 1st. Doves will be slaughtered in the foot hills tomorrow.

A Pretty Home Wedding.

One of the prettiest weddings ever contracted in this city was that of Mr. Fred Nobs of Mexico, and Miss Mildred Smith of Redwood City which took place at high noon Wednesday at the home of the bride's parents, Mr. and Mrs. Benj. P. G. Smith at Finger Park. The home was prettily decorated with ferns and greens and to the strains of Lohengren, played by Mr. Otis M. Carrington, th bridle took their places before the officiating clergyman, Rev D. C. Gardner, of Stanford University. The bride came in upon the arm of her father attended by Miss Edith Kelly and Miss Jessie Smith, while the groom was attended by his brother Walter.

After the ceremony the wedding party and the guests sat down to a wedding dinner where they were bounteously served and where merriment reigned supreme. At the conclusion of the repast, Mr. Humbert Estrella of San Francisco took charge of affairs and a number of relatives were called upon for remarks.

Mr. and Mrs. Nobs, accompanied by sundry streamers, old shoes and many friends were taken for an auto ride through town after which they took the 3:38 train for Carmel where they will spend a few days after which will go to their home in Mexico.

One of the pretty features of the affair was that the day was also the 26th anniversary of the wedding of the bride's parents, Mr. and Mrs. B. Smith.

Old Landmark Destroyed.

The old Kate Johnston building at St. Patrick's Seminary that was used by the working men for sleeping apartments was destroyed by fire Saturday evening last by the explosion of a lamp. The men lost all their clothing and several hundred dollars in cash. Louis Schindler lost his violin that he made and which he valued at $100. The structure was an old land mark in these parts. It was built in 1852 and was constructed in New York and sent around the Horn in sections together with several buildings that were destroyed by the fire in San Francisco. The building was first owned by I. C. Woods, the well-known pioneer banker, and before the advent of the railroad, large parties would be driven down from the city and spend several days at the place. It was often the scene of merriment and gathering of genial spirits who were royally entertained by the owner. The place was known far and wide for its hospitality in the days of long ago. The property afterwards came into the possession of R. E. Doyle who occupied it for a summer home for many years. In the early seventies it was bought by Mrs. Kate Johnston. She lived there for a while she purchased a large number of Angora cats and they occupied favored sections of the house. The felines were her pets and she gave them the best of treatment. The old land mark that connected the present with the past was of Gothic architecture and with its verandas and French plate windows was an attractive home that was the envy of the peninsula before the railroad made its appearance. The old building was partly remodeled by the management of the seminary and made a cosy sleeping place for the men employed on the grounds.

Society In Vaudeville.

Society is keenly interested in the contemplated vaudeville performance which is being arranged to take place September 11th at Menlo under the asupices of the prominent matrons of Burlingame. The prime movers in the planning of the affair are Mrs F. McNear, Mrs. Augustus Taylor and Mrs. William Taylor, all of whom are keenly interested in amateur theatricals. The affair is not to be a benefit but is being arranged for the pleasure of society, and attendance will be by invitation. The programme will include clever musical and dancing stunts and several skits. Those participating will be from among the Kirmess performers of last February. Willard Barton, an extremely clever amateur performer, who inherits the versatile musical accomplishments of his father, the popular ex-president s of the Bohemian Club, has undertaken to coach the performers.

PROMISE GOOD BALL

Home Team Completes Arrangements for Series of Games For Coming Month.

What can you think when you hear that a series of five games of ball have already been arranged to be played between the Redwood and San Mateo baseball clubs in August next. Redwood, since her new lease of life has won you might say every game, San Mateo has done likewise and when one hears the good news that both teams are ready to play ball there is only one conclusion to arrive at, and that is that the most exciting series and interesting series of games ever seen in our little burgs is about due. Note well now and remember the fact that the players of both teams desire to play the game as it should be played and win on their merits alone. We of Redwood have the greatest respect for San Mateo and her ball players and we know we will be called on to extend ourselves to cop the towel from our brothers, the home team say they will do it, that remains to be seen. There is one matter which is pertinent now to mention and that is that when San Mateo visits us, and that will be on Sunday, August 1st, we must see that they are courteously received and treated while our guests. The ball field will be wider so as to prevent anyone but the players, managers, and scoreds upon the grounds; ample protection on this score having been witnessed by the police department of our town. Rowdyism and ruff stuff will not be allowed. Both Joe McCormick and Will Burke as managers are mutually agreed upon the fact that this series can be played and ended so that it will prove a credit to both teams, in this we feel as they do, The players who compose both teams are gentlemen and know how to conduct themselves as such.

Now here is the situation, Redwood in the past has put up some clever entertainment on Sundays for those who go out. As a financial proposition it has not been a success. The expense of securing good teams is considerable and to-day the expenses and receipts are about even, nothing having been made to reward the players for their time and efforts. The grounds are in terrible shape, and it will cost $50 to put them in trim. We cannot ask the players to dig down in their own pockets to fix them, the management will if they get the backing of the lovers of the game, so to cut it short what would you say if you should be asked to help out.

John Barg gave $5.00, Stafford Bros. gave $5.00. Will you help? Leave contributions with Oscar Comper at the Walsh Drug Co., P. P. Chamberlin, John Cullen, Will Barg or Dan Stafford.

A series of games such as you never have seen will result. Everybody boost and help out.

Last Sunday the Palo Alto team fell down against the sturdy bunch we feel proud of and went home 13 to 2.

Tomorrow the Wielands come our way, fresh from the hills of Ferndale and the tale of the game will appear next Saturday. Be out, it's a good game.

A Night On Broadway.

Murray and Mack's "A Night on Broadway" will be presented at the Alhambra next Wednesday night. "A Night on Broadway" is a light, frivolous, but stage entertainment of the proper sort that so strongly appeals to the great majority of people who patronize the playhouse.

The purpose of the incorporation is to purchase a lot on which to erect a building for meetings and entertainments, also to construct and maintain stores. The building to be erected at San Bruno. The actual amount of stock subscribed is $7, by the following stockholders of San Bruno who have subscribed one share each:

V. B. Cosper, E. M. A. Pallas, R. Tormey, R. H. Liddle, L. H. Keel, E. P. Wilson, E. J. Williams.

New Actions Commenced.

The Redwood City Realty Company has brought suit against H. Rasmussen to recover the sum of $550 for making a sale of real estate. A contract, or authorization to sell, was entered into by the parties on January 2nd, 1908, whereby the plaintiff agreed to sell the Rasmussen ranch of 100 acres of land situated on the Woodside road near the McGarvey grade. A purchaser was secured and bought the ranch, paying the sum of $11,000 for same. Accordingly the plaintiffs were to retain a fee of 5 per cent for making the sale. The complaint alleges that the defendant refuses to pay that sum, though requested to do so. Plaintiff also asks for cost of suit.

Louis S. Beedy has commenced an action in the Superior Court against the San Mateo Hotel Co. to have defendant reissue to him 50 shares of the capital stock of the company. The stock was sold on April 7th, 1909 to satisfy an assessment of 50c pr share, levied on Jan. 19, 1909. The plaintiff alleges that said assessment was invalid and of no force and effect.

Reward Is Offered.

Upon information leading to the arrest and conviction of any person found stealing water from the Bear Gulch Water Co., the sum of one hundred dollars will be paid by said company, to anyone givnng such information resulting in conviction of offender.

GO TO THE RESCUE.

Don't Wait till it's Too Late—Follow the Example of a Redwood City Citizen.

Rescue the aching back.
If it keeps on aching, trouble comes,
Backache is kidney ache.
If you neglect the kidneys' warning,
Look out for urinary trouble—diabetes.

This Redwood City citizen will show you how to go to the rescue.

C. J. Bettin, living at 607 Cedar st., Redwood City, Cal., says: "Some eight or ten years ago I slipped and strained my back and from that time on I was more or less troubled by a dull, heavy pain across my loins and kidneys. Seeing Doan's Kidney Pills highly advertised, I procured a box and commenced using them. They went directly to the seat of my trouble, strengthening my back and regulated the action of the kidney secretions. I can say that the claims made for this remedy were prov-true to me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co, Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
